CFDA: 12.556 – Competitive Grants: Promoting K-12 Student Achievement at Military-Connected Schools

Jennifer Dailey-Perkins, Grant Program Manager
Kristy Pitts, Grant Monitoring Specialist
February 2024

Vision and Commitment

“Excellence in Education for Every Student, Every Day, Everywhere.”

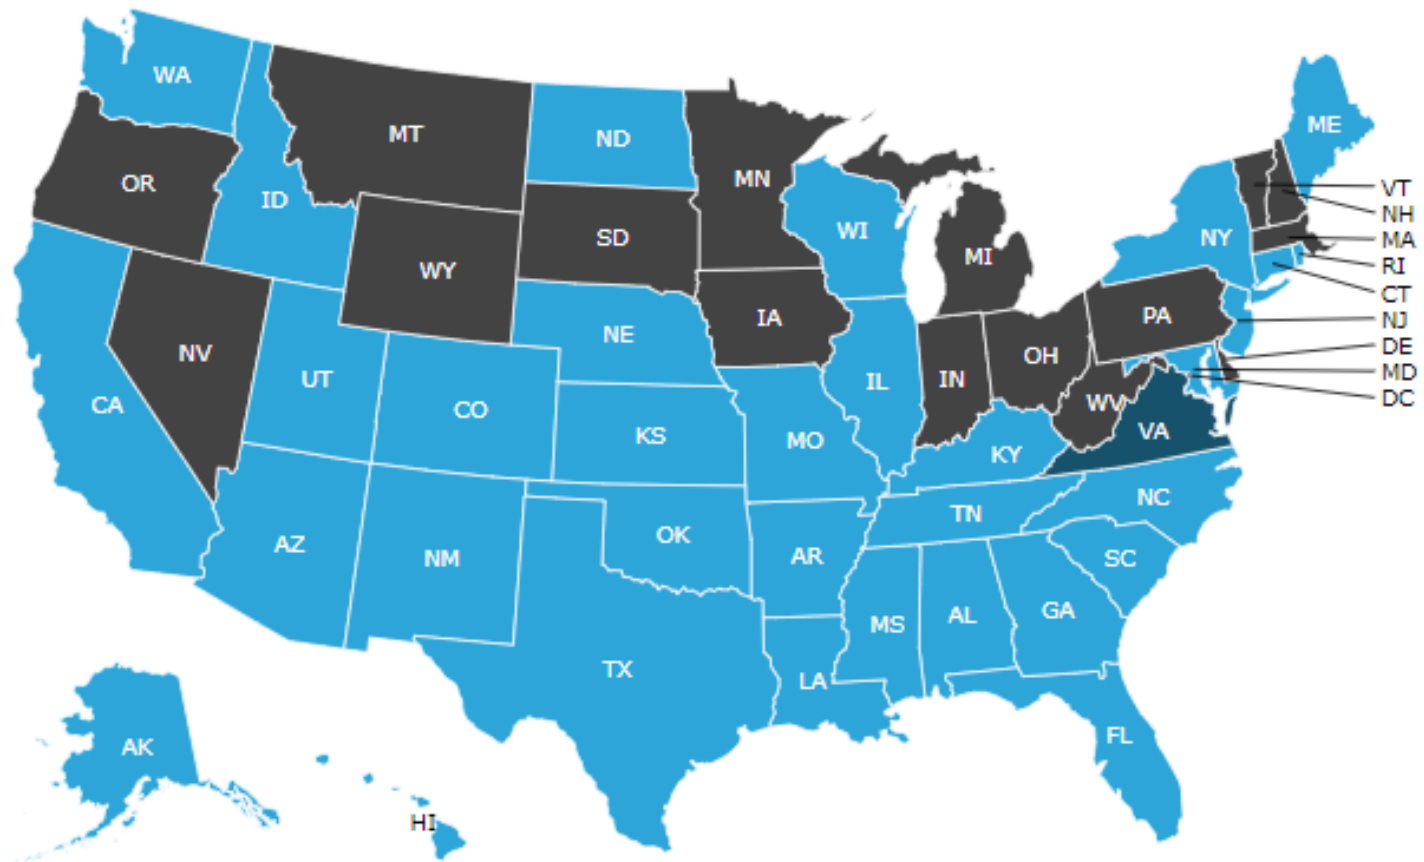

As a Grant Program, we strive to ensure successful implementation of research-based solutions for military-connected students across the United States. Our work empowers educators to provide students with opportunities to engage, enhance, and extend their learning. We see our work as an essential component to provide significant impact for student achievement, professional development for teachers, and enhanced social-emotional support.

2024 Broad Agency Announcement (BAA)

<https://grants.gov/search-results-detail/351849>

- Open: Now – March 29, 2024
- Things to Consider for FY24 Award Cycle:
 - **In addition to submitting the required federal forms a written project narrative MUST be attached to your application!**
 - Two Programs
 - Military Connected Support and Academic Program (MCASP)
 - World Language Advancement and Readiness Program (WLARP)
 - Monitoring Plan Requirement
 - Funding Formula
 - Project Narrative Guidance
 - **NEW Requirement: Logic Model**

FY24 Grant Announcement

- 1) **All applicants:** Eligible/target school(s) must have a ten (10) percent or greater military-connected student enrollment for school year (SY) 2022-2023. The enrollment numbers may be verifiable from the district's U.S. Department of Education Impact Aid totals and/or the State Military Student Identifier data. For the purposes of this announcement, a military-connected student is defined as an elementary or secondary school student who is either a dependent of a member of the Armed Forces or a dependent of a civilian employee of the Department of Defense, or a dependent of a person who is not a member of the Armed Forces or a civilian DoD employee but who is employed on Federal property.
- 2) **WLARP applicants ONLY:** Eligible/target school(s) must be a part of a LEA which currently hosts a unit (or has a pending application to host) of the Junior Reserve Officers' Training Corps (JROTC) in one of their local high schools. JROTC programs, run through the Army, Navy, Air Force and Marine Corps, are taught as elective courses at more than 3,000 high schools nationwide. To find out if a LEA has an eligible JROTC program, please visit the following respective service JROTC websites: ...

Goal Statements

Project Goals (10 points) – The application must consist of a clear description of the technical approach being proposed to address the applicants' chosen program area (either MCASP or WLARP). This section of the narrative should address the following:

- 1) Identify goals of project. The applicant can choose **no more than three goals** for their proposed project. Each goal should be written to state how the project outcomes will be achieved in a clear, specific, and measurable way. An example of a goal statement is *“Military-connected 8th graders will improve their science achievement as evidenced by quantitative and/or qualitative measures by the end of this grant cycle (May 31, 2029).”* Examples of outcome measures can include the following: ...

New Requirement: Logic Model

Why?

Clarity of Purpose: Logic models help articulate the purpose of the project. They clearly define the problem being addressed, the proposed solution, and the expected outcomes.

Planning Tool: They serve as a planning tool, helping applicants think through their strategies and activities systematically before starting the project.

Evaluation Framework: Logic models provide a framework for evaluating the effectiveness of a project. They identify what will be measured and how success will be determined.

Communication: They are a useful communication tool that provides a visual representation of the project, making it easier for stakeholders to understand the project's goals, strategies, and expected outcomes.

Accountability: By outlining the expected outcomes and how they will be measured, logic models hold applicants accountable for achieving their stated goals.

Logic Model

A logic model will replace the Planning Year and Implementation Years templates.

Appendix B: Application Templates

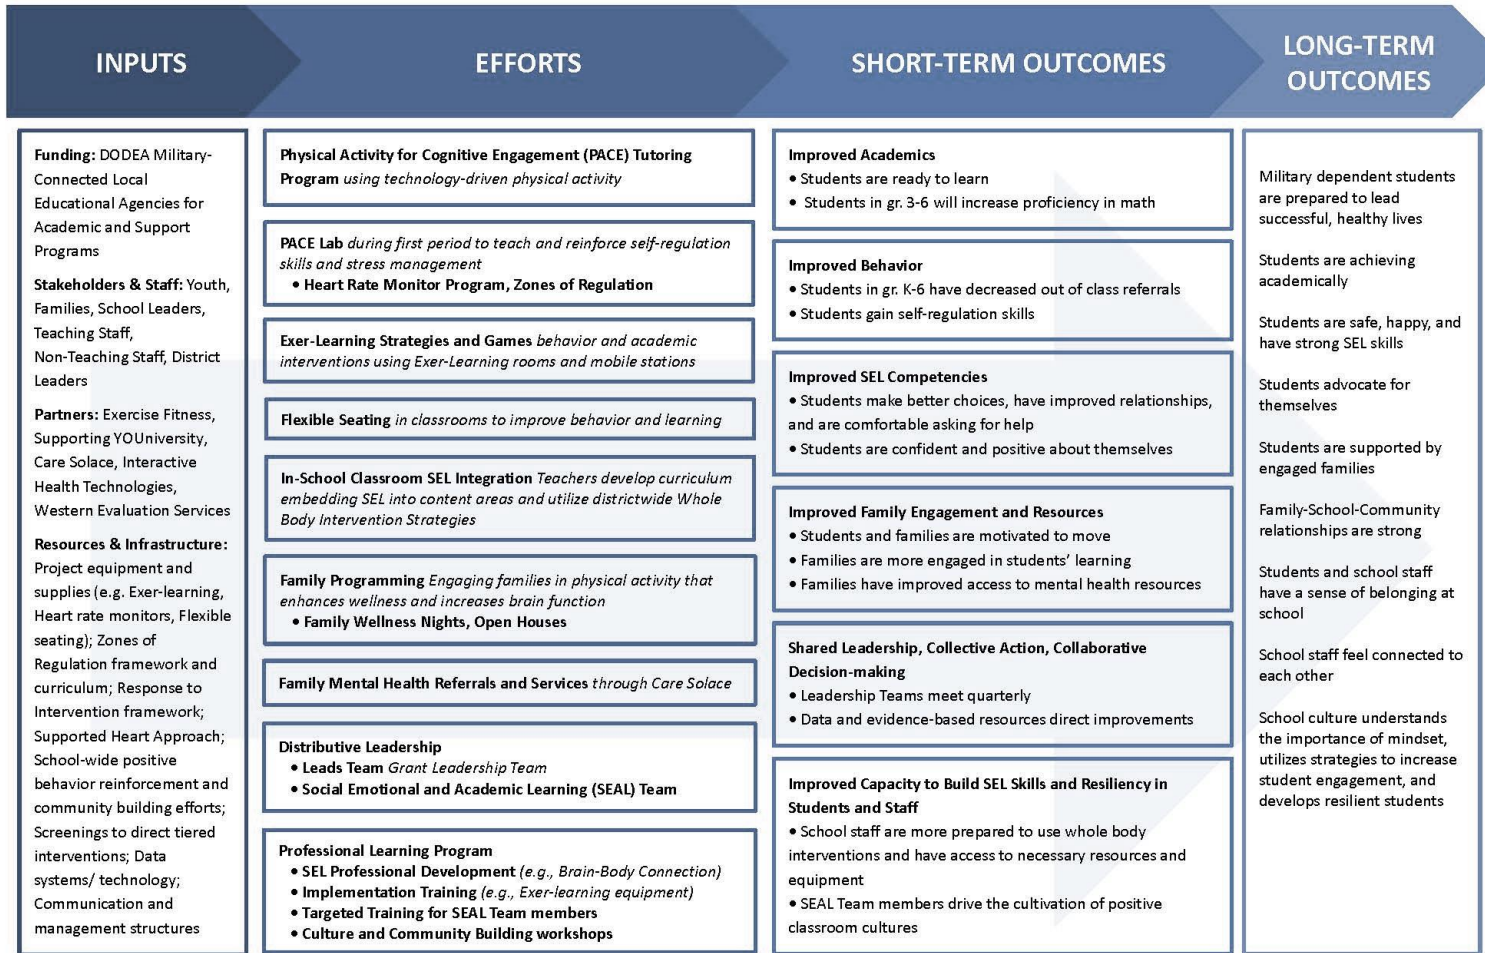

Implementation Years Logic Model

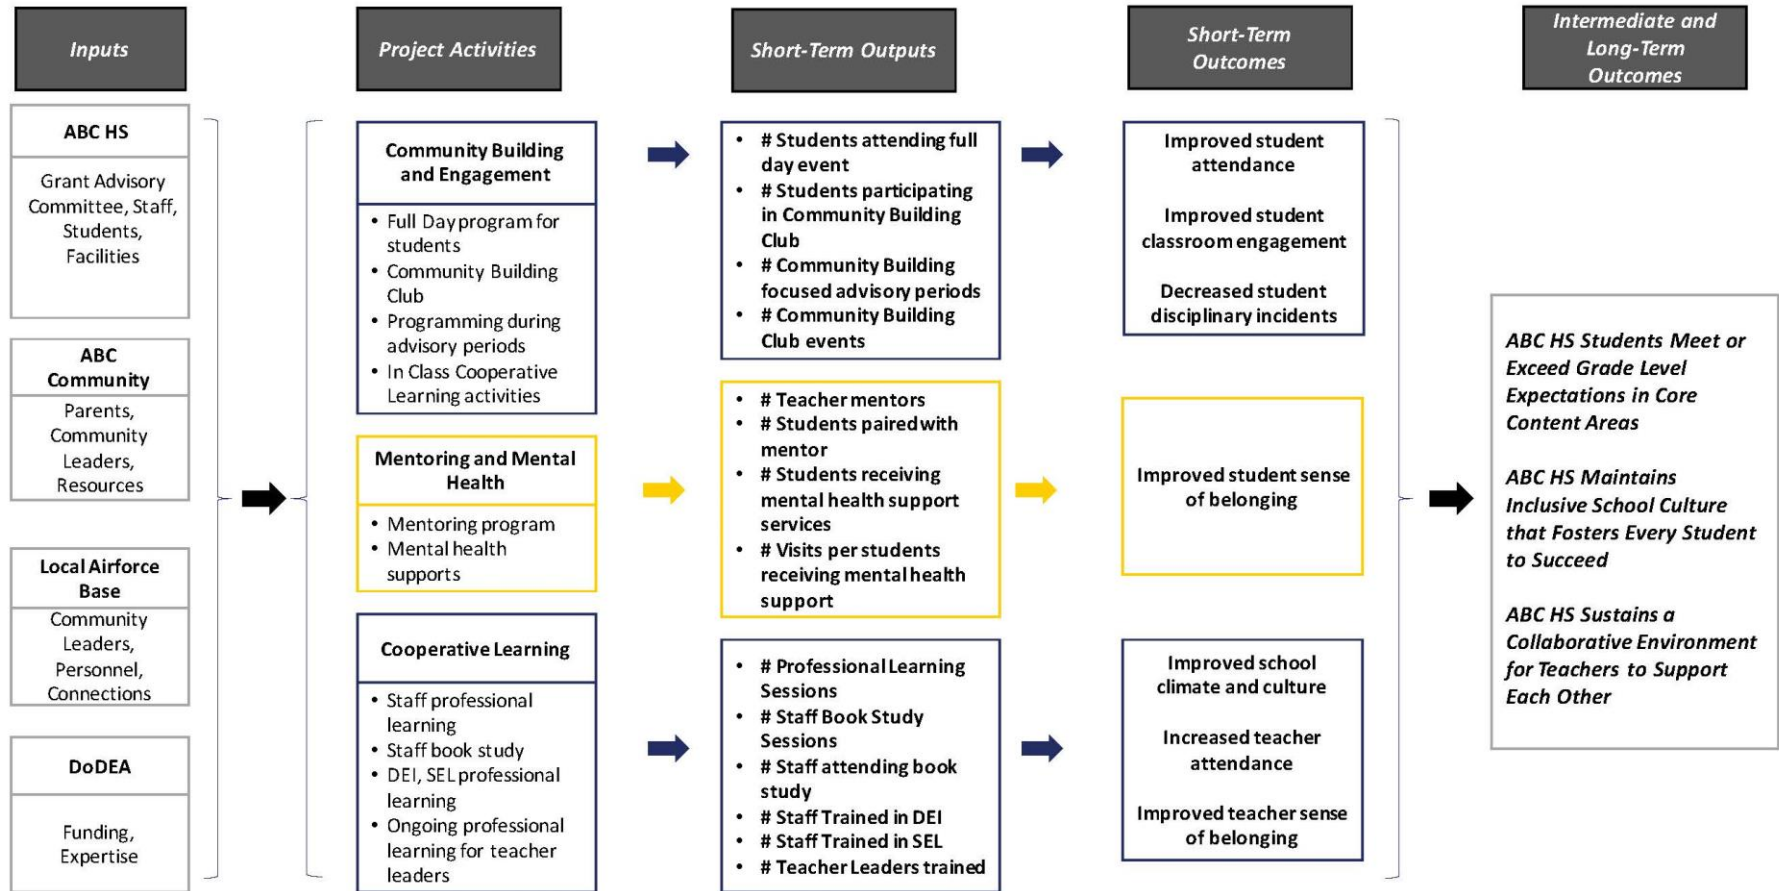

Logic Model Description (NOTE: The template below is to be considered a description of what could be included in a logic model. There are many ways to approach a logic model and the next two pages show samples of acceptable logic models for active DoDEA grants. DoDEA will accept an Implementation Years Logic Model in any concise format the applicant prefers.)

Project PACE Logic Model

Target Population: ABC School District - Eastern Elementary School, Southern School, Northern Elementary School

Competitive Priority Points

- **10 Priority Points**
 - New Applicant
 - Any LEA that does NOT have an active DoDEA grant by June 2024 and has a good past performance history

Format

- Use the exact section titles as listed in the Project Narrative section of the instructions in your application narrative (e g., “Needs Assessment,” “Project Goals,” etc.)
- 30-page maximum for project narrative
 - Appendix pages do not count in page limit
 - 60-page total submission limit
- Use the scoring criteria in Appendix E to ensure evidence for each indicator is provided

Submission Recommendations

- **HIGHLY Recommended:**
 - Attach project narrative as an editable MS Word (.doc) or Adobe (.pdf) file – not an image file (e.g., .jpg, .png) – along with all federal forms.
 - Attach detail budget excel spreadsheet with entire application package submission.
 - Be concise! Anything past 60 pages will not be reviewed (inclusive of appendices and attachments).
 - Retain a copy of submitted documents for reference.
 - Do not lose oversight of the submission.

Merit Review Scoring Criteria

Award and Review Process

APPLICATION: Appendix E of the BAA contains instructions and criteria merit reviewers will use to award points.

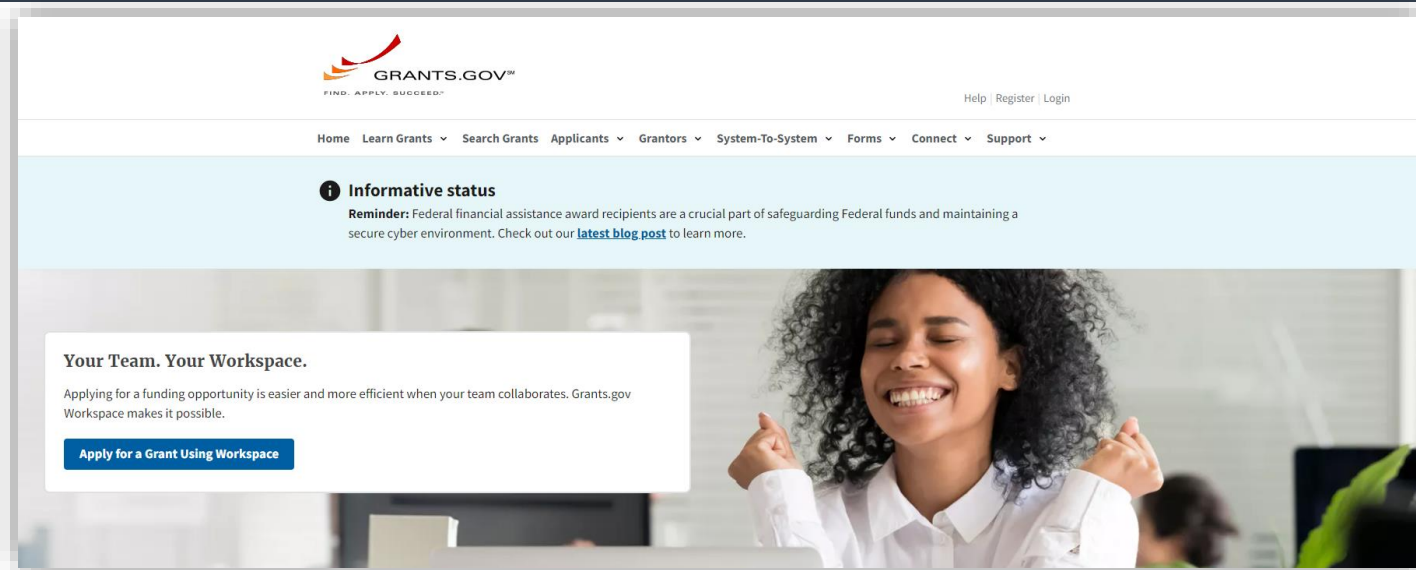

SELECTION: Independent 3rd party reviewers with qualifications and experience in competitive grant application review processes conduct reviews.

PRE-POPULATE: The system will pre-populate answers from the cover sheet to the questions about the competitive priorities → follow the instructions outlined in the BAA explicitly!

REVIEW: Panel scores applications and rankings are produced using the percent of total possible points per application.

AWARD: Final awards are determined by multiple factors including merit review score, risk assessment determination, Director's discretion, and availability of funding.

Submission

- Applications can only be submitted through <https://grants.gov/>
 - For access and assistance, contact the grants.gov helpdesk
 - No applications will be considered via email or after the deadline of March 29, 2024.
